

66. (previously added) The method of claim 2, wherein the step of processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said first party to said second party.

67. (previously added) The method of claim 3, wherein the step of processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said first party to said second party.

68. (previously added) The method of claim 4, wherein the step of processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said first party to said second party.

69. (previously added) The method of claim 5, wherein the step of processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said first party to said second party.

70. (previously added) The method of claim 6, wherein the step of processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said first party to said second party.

71. (previously added) The method of claim 7, wherein the step of processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said first party to said second party.

72. (previously added)      The method of claim 8, wherein the step of processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said first party to said second party.

73. (previously added)      The method of claim 9, wherein the step of processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said first party to said second party.

74. (previously added)      The method of claim 10, wherein the step of processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said first party to said second party.

75. (previously added)      The method of claim 11, wherein the step of processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said first party to said second party.

76. (previously added)      The method of claim 12, wherein the step of processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said first party to said second party.

77. (previously added)      The method of claim 13, wherein the step of processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said first party to said second party.

78. (previously added)      The method of claim 14, wherein the step of

processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said first party to said second party.

79. (previously added) The method of claim 15, wherein the step of processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said first party to said second party.

80. (previously added) The method of claim 16, wherein the step of processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said first party to said second party.

81. (previously added) The method of claim 17, wherein the step of processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said first party to said second party.

82. (previously added) The method of claim 18, wherein the step of processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said first party to said second party.

83. (previously amended) The system of claim 19, wherein the website enables processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said first party to said second party.

84. (previously amended) The system of claim 20, wherein the website enables processing said request to send a blind gift is carried out without revealing the non-

pseudonymous of said first party to said second party.

85. (previously amended) The system of claim 21, wherein the website enables processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said first party to said second party.

86. (previously amended) The system of claim 22, wherein the website enables processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said first party to said second party.

87. (previously amended) The system of claim 23, wherein the website enables processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said first party to said second party.

88. (previously amended) The system of claim 24, wherein the website enables processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said first party to said second party.

89. (previously amended) The system of claim 25, wherein the website enables processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said first party to said second party.

90. (previously amended) The system of claim 26, wherein the website enables processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said first party to said second party.

91. (previously amended) The system of claim 27, wherein the website enables processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said first party to said second party.

92. (previously amended) The system of claim 28, wherein the website enables processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said first party to said second party.

93. (previously amended) The system of claim 29, wherein the website enables processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said first party to said second party.

94. (previously added) The method of claim 30, wherein the step of processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said first party to said second party.

95. (previously added) The method of claim 31, wherein the step of processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said first party to said second party.

96. (previously added) The method of claim 32, wherein the step of processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said first party to said second party.

97. (previously added) The method of claim 1, wherein the step of processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said second party to said first party.

98. (previously added) The method of claim 2, wherein the step of processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said second party to said first party.

99. (previously added) The method of claim 3, wherein the step of processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said second party to said first party.

100. (previously added) The method of claim 4, wherein the step of processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said second party to said first party.

101. (previously added) The method of claim 5, wherein the step of processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said second party to said first party.

102. (previously added) The method of claim 6, wherein the step of processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said second party to said first party.

103. (previously added) The method of claim 7, wherein the step of

processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said second party to said first party.

104. (previously added) The method of claim 8, wherein the step of processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said second party to said first party.

105. (previously added) The method of claim 9, wherein the step of processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said second party to said first party.

106. (previously added) The method of claim 10, wherein the step of processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said second party to said first party.

107. (previously added) The method of claim 11, wherein the step of processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said second party to said first party.

108. (previously added) The method of claim 12, wherein the step of processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said second party to said first party.

109. (previously added) The method of claim 13, wherein the step of processing said request to send a blind gift is carried out without revealing the non-

pseudonymous of said second party to said first party.

110. (previously added) The method of claim 14, wherein the step of processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said second party to said first party.

111. (previously added) The method of claim 15, wherein the step of processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said second party to said first party.

112. (previously added) The method of claim 16, wherein the step of processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said second party to said first party.

113. (previously added) The method of claim 17, wherein the step of processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said second party to said first party.

114. (previously added) The method of claim 18, wherein the step of processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said second party to said first party.

115. (previously amended) The system of claim 19, wherein the website enables processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said second party to said first party.

116. (previously amended) The system of claim 20, wherein the website enables processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said second party to said first party.

117. (previously amended) The system of claim 21, wherein the website enables processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said second party to said first party.

118. (previously amended) The system of claim 22, wherein the website enables processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said second party to said first party.

119. (previously amended) The system of claim 23, wherein the website enables processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said second party to said first party.

120. (previously amended) The system of claim 24, wherein the website enables processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said second party to said first party.

121. (previously amended) The system of claim 25, wherein the website enables processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said second party to said first party.

122. (previously amended) The system of claim 26, wherein the website enables processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said second party to said first party.

123. (previously amended) The system of claim 27, wherein the website enables processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said second party to said first party.

124. (previously amended) The system of claim 28, wherein the website enables processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said second party to said first party.

125. (previously amended) The system of claim 29, wherein the website enables processing said request to send a blind gift is carried out without revealing the non-pseudonymous of said second party to said first party.

126. (currently amended) The method of claim 30, ~~wherein the website enables~~ further including the step of enabling the step of processing with a website, and wherein the processing step ~~said request to send a blind gift~~ is carried out without revealing the non-pseudonymous of said second party to said first party.

127. (currently amended) The method of claim 31, ~~wherein the website enables~~ further including the step of enabling the step of processing with a website, and wherein the processing step ~~said request to send a blind gift~~ is carried out without revealing the non-pseudonymous of said second party to said first party.

128. (currently amended) The method of claim 32, ~~wherein the website~~  
~~enables further including the step of enabling the step of processing with a website, and~~  
~~wherein the processing step said request to send a blind gift~~ is carried out without revealing the  
non-pseudonymous of said second party to said first party.
